ART DEPARTMENT

What I can do / The skills I bring to the job

Industry knowledge Over 15 year's relevant experience. I've worked in a wide variety of locations and with a diverse range of budgets, styles and directors. **Fully equipped** Own tools, own van. **Flexible** No night too long, no location too exotic. **Artistic** Extensive experience in exhibit and installation set up after majoring in photography at art school in Wellington.

Practical All the necessary skills to find, build, paint, fix, mend, hide, secure, sew, glue etc.

Resourceful Vast knowledge of sources and suppliers locally, nationally and abroad. Need an embalming machine, artificial lobsters, or an Egyptian brain riser to dislodge a Pharaoh's cerebrum – I know where to find them. **Creative** What I can't source, I can create; a garden of large hydrangeas flowering out of season or a life sized recreation of Auckland zoo – consider it done.

Economical I'm mindful of cost and don't waste money or resources. **Organized** I'll have the right items in the right place when needed. **Networked** I always know a guy who knows a guy.

Reliable Healthy and strong. **Team player** Happy to give or take direction.
