Experienced and well regarded Locations Manager and Scout for Feature Film, Television and Commercials.

I have an excellent eye for photography, an intrepid attitude and great relationship skills. Coming from a production background I understand the logistics of filming and thought is always put into access and practicalities as well as story and style. I work closely with the Director, Production Designer and DOP to fully understand the brief and try to bring a surprise or two when I can. Most importantly I always take good care of location owners and have the follow through to ensure that film crews are welcome back. I work closely with the New Zealand Film Commission and Screen Wellington to attract and retain international productions within the Wellington region.
