FILM EXPERIENCE

23 years in the film industry working in Stunts and Marine Department. I have much experience to draw on, and, coupled with over 80,000 nautical miles of ocean sailing, I'm well equipped to meet the unique challenges filmmaking on or in the water presents.

I have H.O.D experience as a Stunt, Marine and Safety Coordinator, Skipper and Stunt Professional on numerous Feature film and TV productions in NZ and international. Land, River, and Sea.

Coordinating of camera boats, support vessels, picture boats, crew and actor training, underwater safety, as well as the usual land location challenges, is my profession.

I work either side of the camera, performance and acting, and strive to produce a quality film product in any project I work on. With a great safety record, I'm well adept to film safety protocols both NZ and abroad.

Please check my IMBD profile here: <https://www.imdb.com/name/nm2271845/>
