

Tiare Lambeth

Camera Trainee - Camera Assistant - Runner - Production Assistant

I have built my experience through both professional and passion projects, including music videos, short films, and photography. I have on-set credits in the UK as a Camera Trainee and Production Runner. I am passionate about capturing moments with purpose, whether to hold a memory, share a feeling, or support a story.

I am now focused on developing my career within the film industry, with a particular interest in the camera department and production.
